Dmitry Ulasau, BA

Software Engineer

Plainsboro, NJ 08536 - US Citizen - (646)-238-3713 – dmitrushok@gmail.com - [LinkedIn](#) - [GitHub](#)

Front-End Developer | Back-End Developer | Full-Stack Developer

PROFESSIONAL SUMMARY

Experienced Software Developer proficient in HTML, CSS, JavaScript, React, and Material UI. Excels in crafting user-centric web apps with seamless API integration. Collaborative team player committed to innovation and staying updated with industry trends.

KEY SKILLS

Technologies: Angular, Bootstrap, Django, Express.js, ES6, Flask, HTML/CSS, JavaScript, Java, jQuery, Material-UI, Node.js, NoSQL (MongoDB), Oracle Database, Python, React, Sass, SQL (Postgres), TypeScript, Vue.js
Developer Tools: IntelliJ, Figma, GitHub, Netlify, Postman, PyCharm, SQL-Server, Visual Studio
Techniques: Agile Development, CMS, OOP, Pair Programming, REST, SEO
Platforms: AWS, Linux, MacOS, Windows
Other: English, Belarussian, Russian

PROFESSIONAL EXPERIENCE

Front-End Developer   *September 2023 - Current*
Gomed   *Prague, CZ*

- Created user-friendly web applications collaboratively, utilizing HTML, CSS, JavaScript, React, and Material UI, ensuring they meet user needs and exceed expectations.
- Translated design mock-ups and business requirements into technical specifications, deploying responsive and mobile-first designs for seamless usability across devices.
- Incorporated RESTful APIs seamlessly, allowing real-time data retrieval and updates, enhancing user engagement and satisfaction.
- Engaged in code reviews, testing, and debugging processes to maintain high code quality and optimize application performance.
- Kept up to date with industry trends and best practices, implementing cutting-edge technologies to deliver innovative and competitive web applications.

Software Developer Intern   *January 2023 - April 2023*
Showing Guide   *Brooklyn, NY*

- Devised and implemented REST APIs to optimize seamless communication between front-end and back-end systems.
- Successfully integrated the OpenAI API with various real estate data sources and other external APIs, enhancing the application's data-driven capabilities.
- Collaborated effectively with the team to guarantee the smooth and error-free integration of APIs and overall system functionality and performance.
- Rectified Front-End styling issues within the Angular application, ensuring a more polished and user-friendly interface.

Software Engineer in Training   *June 2022 - September 2022*
Coding Temple   *Brooklyn, NY*

- Engineered a dynamic social media application utilizing the MERN stack, enabling seamless sharing and consumption of travel tips to promote enhanced travel experiences.
- Designed and developed the application using Python, Flask, and Bootstrap, implementing robust security measures for user authentication and registration, enhancing the user experience.
- Crafted a JavaScript application widget that retrieves JSON data from public APIs, providing users with instant weather updates for their chosen locations.
- Architected and implemented databases using PostgreSQL and SQL. This involved thorough database design, detailed analysis, and seamless implementation.
- Demonstrated versatility in software development by crafting both an e-commerce website and an interactive game application using object-oriented programming (Python).
- Utilized Axios for API calls with testing performed on Postman to ensure data retrieval and application reliability.
- Innovatively coded an application in Java for note taking and organization, elevating users' productivity and improving information management.

Front-End Developer   *May 2020 - April 2022*
TebeP   *Brooklyn, NY*

- Contributed to the development and continuous maintenance of an e-commerce website, focusing on enhancing functionality and significantly improving platform performance.
- Cooperated effectively in conducting comprehensive code reviews, working closely with the engineering team to ensure project completion without errors.
- Boosted sales rate by 8% on the company website and increased the number of customers by creating a new website with extended functionality.

EDUCATION

Bachelor of Business Administration   2009
Belarusian National Technical University   Minsk, BLR

Computer Science   2022
Udemy   Brooklyn, NY
